Association

WHO IS OAA?

The Ohio Aviation Association is *the voice* for the airports that contribute to the economic vibrancy and well-being of Ohio, the birthplace of aviation. The OAA has brought success to our airports over the last few years as we worked with the State to increase state funding. We continue to voice your needs to legislators while watching out for legislation that could be detrimental to Ohio's airport environment.

But we offer more than lobbying efforts to our members. We offer the value of communication, engagement, and education. We keep an eye on the future while also offering everyday needs to our members such as a place to post job positions, RFP/Qs, etc. And did we mention networking, networking, and networking?
